To: Parents placing their children into Youth Ministry

The pandemic shut down the BBC ministry in March. The last Sunday we gathered was March 22, 2020. Once the NJ governor prescribed guidelines where we could have in person services, we began meeting again on Sunday June 14, 2020.

With the new guidelines issued by the governor for in person daycare and schools, we are ready to open up the youth ministry again. We have received numerous inquiries as to when we would. Presently it will be limited to Friday nights from 7:00 PM – 9:00 PM. We will begin to reopen other ministries involving children gradually.

We are taking the precautions the NJDOE and CDC have recommended. Some health & safety measures we are taking, but not limited to are:

- Teachers and assistants will be trained in proper sanitization, social distancing and to look for symptoms.
- Teachers, assistants and teens will be required to wear a mask when indoors and when 6 feet separation is not possible outdoors. **PARENTS ARE REQUIRED TO INFORM THEIR TEEN OF THIS RULE.** Our teachers cannot spend the whole time policing the kids. If it is noticed that a teen does not comply, the parent(s) will be notified.
- A Health & Safety Form must be completed whenever a child is placed into youth group. (These are available on our website www.Biblebaptist.net).
- Every teen will be screened when checking in.
- Soap and water are available for the children, teachers and assistants as well as hand sanitizer.

The teachers and assistants will do their best to promote a nonphysical environment. But as we know, sometimes the kids will undoubtedly come into contact with each other.

We will update and make changes to the guidelines as the NJ governor does and recommends.

Reminder: PARENTS ARE REQUIRED TO INFORM THEIR TEEN OF THESE GUIDELINES
